:: Unix command line navigation ::
LaTeX

Summary

My critical problem-solving skills and ability to work in a team setting have allowed me to adapt to new roles. I readily learn new skills and technologies and am prepared to offer my expertise and aptitude to meet the needs of your organization.

Education

Tech Elevator

Sept, 2018 - Current

Currently attending a 14-week Java coding bootcamp to learn how to develop dynamic web-based software systems using the Java programming language.

Udacity

2017-2018

Intro to Computer Science
SQL for Data Analysis

Kent State University

2014-2017

Bachelor of Science - Public Health

Technical Projects

Portfolio Website

Created a dynamic blog website utilizing python, django, and virtual environments to document my journey in programming.

Vending Machine Application

Developed a vending machine application in Java using object oriented programming fundamentals by utilizing file.io

National Parks Registration

Developed a registration page for National Park tours in Java and PostgreSQL

National Parks Web-Application

Developed a weather service web-app for National Parks information using Spring Web MVC

Experience

New Product Development Coordinator

Agrana Fruit

Sept, 2017 - March, 2018

- Served as a liaison between New Product Development and plant production
- Acted as a key user of SAP to update Master Data and facilitate the scale-up process
- Maintained data on SharePoint

Independent Technology Evaluator

Leapforce at Home

Dec, 2015 - Sep, 2016

- Provided consultation to online search and social networking companies including Google, Facebook, and Microsoft
- Documented the efficacy of back-end algorithms and user experience of front-end products

Lab Technician

Dip Tech Systems

April, 2012 - Dec, 2015

- Performed quality control and inspection
- Manufactured medical catheter balloons
- Dip molded products for research and development
