Skills

Languages
Java :: Python :: SQL :: JavaScript :: CSS :: HTML

Database Programming
PostgreSQL :: E/R diagrams :: Table Design and Creation :: SQL queries and DML

Development Tools and Techniques
Spring Web MVC :: JSP :: Tomcat :: VS Code :: Eclipse :: Vue :: Bootstrap :: JUnit Testing :: Agile :: Git :: Django :: Integration Testing :: UNIX Command Line Navigation :: LaTeX

Summary

My critical problem-solving skills and ability to work in a team setting have allowed me to adapt to new roles. Having both been a full time employee and full time student I have proven myself to be dedicated, motivated, and determined. I readily learn new skills and technologies and am prepared to offer my aptitude to meet the needs of your organization.

Education

Tech Elevator — Sept 2018 - Present
Currently attending a 14-week Java coding bootcamp to learn how to develop dynamic web-based software systems using the Java programming language

Udacity — 2017-2018
Intro to Computer Science
SQL for Data Analysis

Kent State University — 2014-2017
Bachelor of Science - Public Health

Technical Projects

Portfolio Website
Created a portfolio website utilizing Python, Django, Bootstrap, and virtual environments to document my journey in programming

National Parks Web-Application
Developed a weather service web-app for National Parks information using Spring Web MVC

National Parks Registration
Developed a registration page for National Park tours in Java and PostgreSQL

Vending Machine Application
Developed a vending machine application in Java using object oriented programming fundamentals by utilizing file I/O
